V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-28	YES
	Claims		NO
Inventive step (IS)	Claims	1-28	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-28	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

Reference is made to the following document:

D = EP 1175043 A1 (2002.05.27)

Novelty

D does not reveal the invention's characteristics that it remotely controls a home network by connecting a remote control point and a home control point set up in a user's home. Therefore, the invention according to Claims 1-28 is considered to be novel.

Inventive step

Claims 1-28 relate to a remote control method of remotely controlling appliances connected to a home network system of which one control point is set within the home and the other control point is at a remote terminal. The two points are connected through a specific channel.

D discloses a method of access to a home network via an existing communication network, the home network and the communication network being connected by a gateway.

Comparing the present invention according to Claims 1-28 with D, they are in a degree similar in having access to a home network via an existing network connected by a gateway. But, D does not reveal the invention's characteristics that it remotely controls a home network by connecting a remote control point and a control point within a user's home.

Therefore, claims 1-28 of this invention are considered to involve an inventive step.

Industrial Applicability

The subject matter of claims 1-28 fulfills the requirements of Article 33(4) PCT because it is useful.
